

On last Saturday morning (February 24, 2024), nine brave Mustangs Northwest members got up very early and in their Mustangs (and one Jeep) made their way to the Aurora Square shopping center in North Seattle. That is the location of the weekly Shoreline Cars & Coffee car show. They were soon joined by dozens of all sorts of other cars, trucks and even a Plymouth Prowler.

It was a fun show, with lots of interest in our Mustangs, both from spectators, other participants and photographers.

The weather did it's best to cooperate, with no rain and mild temperatures. On hand provided by some participants was a propane fired oil drum heater along with coffee and cookies, which were appreciated by all.

Lots of discussions were had about the details of our steel steeds by the spectators and other show participants, to the delight of their owners. One notable participant was the famous TV, print and local car guy legend, Lance Lambert, who was the proud owner of the Prowler, which he has named Walter, after the creator of the Chrysler Corporation, Walter P. Chrysler.

As the show waned, we again took to our steeds and drove north to the Edmonds Dick's Drive In for an early lunch of burgers, fries and shakes.

Many thanks to Scott and Lois Robinson, Bill George, Mike Hunsley, Rob Ogden, Jeff Schonbrun, Eric and Tracy Johnson, and Matt Ventura for coming out.

Stay tuned in the coming months for a repeat of this show, along with a special treat to follow.....

Ron Foster
